Art Unit 1211

The Group and/or Art Unit location of your application in the PTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Group 1200, Art Unit 1211.

5       Claims **17-19, 21-25, 27, 44-46, 48-52, 54-56, 58, 61** and **64** have been found allowable in view of applicant's submission of appropriate terminal disclaimers which have now been entered in the case. However, applicant is advised that the enclosed Reasons for Finding of Allowability is a step made in advance of the  
10 declaration of an expected interference. Applicant is advised further than no Notice of Allowance will be forthcoming prior to findings related to this matter by the Board of Appeals and Interferences.

The following is an Examiner's Statement of Reasons for the Finding of Allowability:

15      The prior art of record does not disclose individually or in combination the claimed oligonucleoside phosphorothioates which are complementary to specific portions of the HIV genome or compositions containing said oligonucleoside phosphorothioates.

20      The prior art Cohen et al patents newly cited in the previous office action mailed April 16, 1996 are also not deemed to provide any basis for findings which differ from the above conclusion. However, because said art was deemed to be relevant to issues of interference, it was made of record in order to make the record complete.

25      Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid

Art Unit 1211
